

# 2017 - 2018 Corvette: Service Bulletin: #16-NA-330: Information for Corvette Aero Packages

## #16-NA-330: Information for Corvette Aero Packages - (April 19, 2017)

| Subject:                          | Information for Corvette Aero Packages |   |         |           |    |                       |
|-----------------------------------|--|---|---------|-----------|----|-----------------------|
| Brand: Chevrolet                  | Model: Corvette                        | Model Year: from 2017   | to 2018 | VIN: from | to | Engine: Transmission: |
|                                   |  |   |         |           |    |                       |
| <i>Involved Region or Country</i> |  | North America and N.A. Export Regions   |         |           |    |                       |
| <i>Additional Options (RPO)</i>   |  | Equipped with Performance Package RPOs CFV, CFZ or Z07  |         |           |    |                       |
| <i>Condition</i>                  |  | This communication is to inform the pre-delivery technician which aero components are to be installed on the 2017 - 2018 Corvette during the pre-delivery inspection (PDI) process. |         |           |    |                       |
| <i>Cause</i>                      |  | This may be due to the various ground effect parts that make up the aero packages.  |         |           |    |                       |
| <i>Correction</i>                 |  | Please confirm the correct aero components are installed during the   |         |           |    |                       |

Please confirm the correct aero components are installed during the

PDI process. Use the photos and tables below to confirm the correct aero parts were shipped and installed on the vehicle prior to delivery.

**Important:** The tall end caps and clear bridge are for track use *ONLY. DO NOT* install during PDI.
