

2007 Corvette Z06: Dealer Bulletin: Addition Of Optional Z06 Chrome Wheel

To: All Chevrolet Corvette Dealers

Date: October 11, 2006

Re: Addition of optional Z06 chrome wheel

While initial research had indicated that the polished wheel option would remain the predominant Z06 consumer choice, we have received an increasing number of requests to also offer an original equipment chrome Z06 wheel. We have responded and are pleased to announce that a chromed version of the Z06 wheel (RPO Q76) is now available for ordering. Production expected to begin 11/6/06.

Because we will be utilizing a single supplier for both the polished (Q10) and the new chrome (Q76) wheel we do not anticipate the need to impose constraints on either wheel at this point in time.

We will continue to strive to meet and exceed customer expectations keeping this the most exciting and successful Corvette ever produced.

Corvette Marketing Team

General Motors bulletins are intended for use by professional technicians, not a "do-it-yourselfer". They are written to inform those technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions and know-how to do a job properly and safely. If a condition is described, do not assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See a

General Motors dealer servicing your brand of General Motors vehicle for information on whether your vehicle may benefit from the information.
