2006 Corvette Z06: GM TechLink: Car Wash - Tire Fitment

Car Wash
The Z06 may not fit on some car washes due to the use of wider tires (rear tires are 13.6 inches, 325 mm, on 12-inch wheels). An information hang tag is included on the gearshift lever.

General Motors bulletins are intended for use by professional technicians, not a "do-it-yourselfer". They are written to inform those technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions and know-how to do a job properly and safely. If a condition is described, do not assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See a General Motors dealer servicing your brand of General Motors vehicle for information on whether your vehicle may benefit from the information.
